

ABC LIOVIN

# GEOPROBE 6712DT

## KEY SPECS

- Width - 52" (4'4")
- Length - 115" (9'7")
- Unfolded Height - (12'9.5")
- Folded Height - (7'0.5")
- Gross Weight - 5,900 lbs.
- GH63 Hammer System
- 36,000 lb. Downward Force
- 49,000 lb. Retraction Force

This compact light weight rubber track mounted rig is modular yet has robust performance from the GH63 Hammer System.

## CAPABILITIES

- DT22 Soil Sampling for Continuous Core & Interval Soil Sampling.
- Macro Core - MC5 Soil Sampling for larger interval samples.
- SP22 Hydropunch groundwater sampler.
- Collect soil/groundwater & set vapor probes in one boring.
- Mast & Winch for safe/efficient deeper probing.
- Dedicated F550 Stake bed truck with lift gate.
- Fully self-contained concrete coring and saw-cutting capabilities.
- Rig splits apart into 3 components for challenging logistics.
- Tethered remote control for rubber tracks.
