

ABC LIOVIN

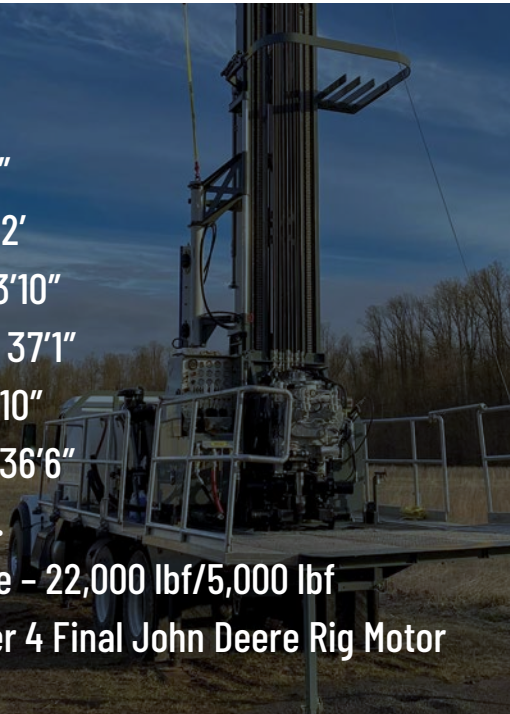

This state of the art resonant sonic drill rig combines industry leading power with all the advantage of a full-sized, truck-mounted configuration.

TERRA SONIC 150T

KEY SPECS

- Width (folded) – 8'6"
- Width (unfolded) – 12'
- Length (folded) – 33'10"
- Length (unfolded) – 37'1"
- Height (folded) – 12'10"
- Height (unfolded) – 36'6"
- Weight – 47,000 lbs.
- Retract/Down Force – 22,000 lbf/5,000 lbf
- CARB Compliant Tier 4 Final John Deere Rig Motor

CAPABILITIES

True Sonic Performance

Exclusive TSi 150 Series Sonic Oscillator uses 150 HP to generate up to 50,000 lbs. of resonant sonic energy.

Enhanced Safety

TSi 150T work platform is surrounded by safety handrails.

Convenient Operation

An extra-large, elevated work platform and fold-down walkway enhance crew operating efficiency and safety

Maximum Drilling Performance

Rated drilling depth of up to 800' depending casing design and lithology

Abundant Power

A 250 HP separate deck engine powers all drilling and accessory hydraulic functions

Drilling Versatility

The 32-ft mast can be positioned for drilling angles anywhere between vertical to 45°

Faster Performance

Mast has 24.5 feet of head travel to enable tripping in and out of hole with 20-ft sections of rods stacked vertically alongside the mast

Full Drilling Range

Uses drill steel from 3" to 12" in diameter for use in many applications

Greater Drilling Efficiency

Down force of up to 15,000 lbs. and pull back force of up to 22,000 lbs. provide maximum drilling efficiency

Automatic Above Ground Hammer

Designed for taking SPT and California Modified soil samples, providing blow counts for geotechnical purposes.
